ALL PRICES ARE NET, BOXING AND BALING EXTRA. NO CHARGE FOR PACKING BULK CARS.

SHIPPING—Please give shipping instructions whether by freight or express and route. If no instructions are given we will forward to the best of our judgment, without assuming responsibility. All goods travel at the purchaser's risk and expense.

TRUCK SERVICE—We are able to offer truck service within a radius of 300 to 500 miles from Onarga, Ill. Charges average about the same as railroad rates with delivery at your door. If interested write for further information.

CAUTION—We will accept all orders subject to crop conditions and on condition that same shall be void should injury befall our stock from hail, fire, frost, error in count or other causes beyond our control.

GUARANTEE OF GENUINENESS—If any nursery stock, proves untrue to description or variety name under which it is sold, we hold ourselves in readiness, on proper proof, to replace such nursery stock that may prove untrue to description or name, or refund the original amount paid. We shall in no case be liable for any sum greater than the amount originally received for said nursery stock.

CLAIMS for any cause must be made promptly on receipt of stock. We will not entertain claims after goods have been once accepted, or when report is not made within **TEN DAYS** after arrival of stock. We express or imply no warranty as to productiveness or life of the nursery stock we sell and will not be in any way responsible for the results secured in transplanting.

INSPECTION and FUMIGATION—Certificate of inspection is furnished with each shipment, and stock will be fumigated when required.

Rose Display Carton

SELECTED ROSES

This Display Carton contains twelve XX extra heavy selected roses. Each rose is wrapped individually in water-proof paper and packed in peat ready to hand to your customer. The tops of these roses have been dipped in a cold paraffin solution to preserve the tops and assure your customer of receiving stock in first class condition.

We place a photograph on each Rose Display Carton showing the exact picture of the Rose while in bloom.

Wrapped Shrub

Root-Wrapped Shrubs

We wrap the root of each plant separately, label to name and color, using either paper or burlap whichever you prefer, and a good damp packing material to protect the roots.

Plants packed in this manner are ready to hand to your customers without any trouble on your part. We furnish colored lithographic plates for each item on your order free of charge.

Perennial Display Carton

Root-Wrapped Perennials

We have specially designed this new Display Carton for merchandising perennials. Each Display Carton has an actual photograph of how each plant looks while in bloom. The roots of each plant are wrapped individually in paper and peat, assuring your customer of receiving stock in first class condition.

This Display Carton will hold only 24 individually wrapped perennials so please order in units of 24.

One Man Shrub Digger

This machine is the best labor saving machine on the market. It saves the labor of two men and four to six horses. Only one man is required to sit on the seat and operate. Handles as easily as a riding cultivator. For heavy 3-4 foot shrubs use four-horse evener; for light digging only one team is required.

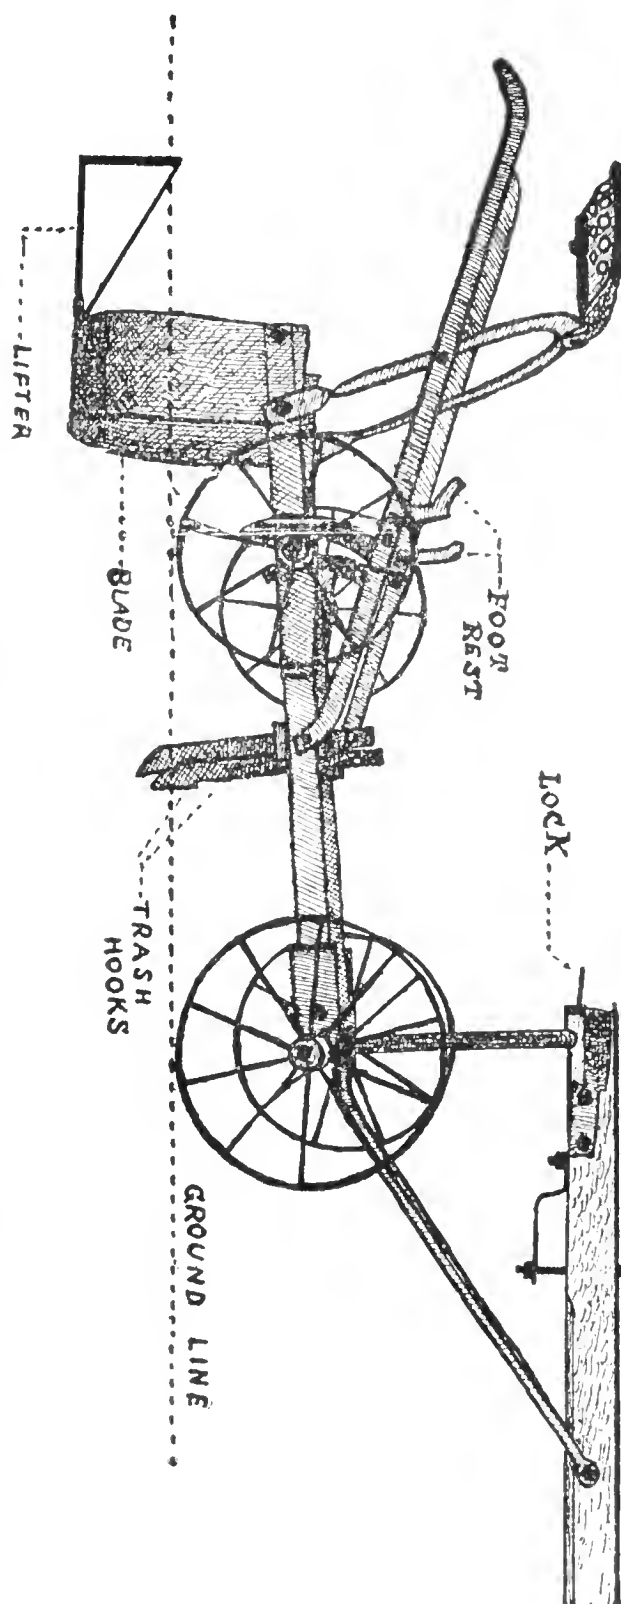

For pruning Evergreen roots and light digging, remove lifter,

adjust depth of blade by raising or lowering back wheel adjustment. In nursery rows where three or four varieties are growing in the same row to dig one of the varieties in the middle of the row, drive down the row to variety wanted, trip lock and digger will be in position as in illustration—dig variety wanted, raise blade to upright position where it locks, and drive on.

Very fine for June Bud Peaches. To dig 2 year apples wrap doubletree with burlap.

This digger is just the thing for a nurseryman with a few acres and short rows and is also just what the larger grower has been looking for. Will pay for itself the first week. Not carried in stock. Order early to have digger on hand when you want it.

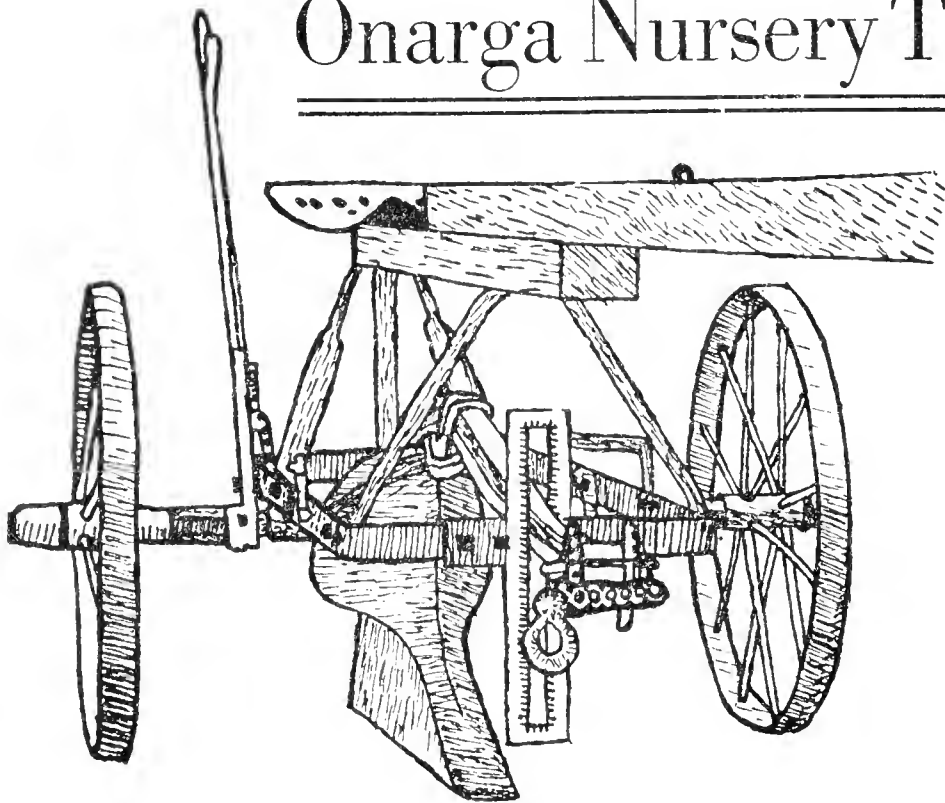

Diggers with 18 to 20 inch blades are of extra heavy construction to withstand the additional strain.

Onarga Nursery Trencher

This is something new in a trencher for the planting of young shrubs, plants and trees. Made with three interchangeable beams. Illustration shows beam No. 1.

Beam No. 1 is the middle breaker type; it cuts the dirt, moves it to the surface, and deposits it on each side of the trench, thus giving an abundance of soft earth for bedding around the roots of the young plants. This beam is best adapted for light or sandy soils.

Beam No. 2 is side delivery type; it brings the dirt to the surface and deposits it on the side of the trench. We use this in heavy soil where the pull is too heavy on the team to cut the entire depth the first time through. We make a round with the machine to each trench thus depositing the dirt on each side, but cutting only half the depth each time through. The old style trencher packs the dirt on each of the walls of the trench and if the soil is heavy or a little wet it produces a hard smooth surface and the planter is often times hard put to find enough soft dirt to bed the roots of the young plants properly.

Beam No. 3 is for planting hard wood cuttings direct to the field. It drives a trench $\frac{3}{4}$ of an inch wide and to a foot in depth; thus properly handling the longest grapevine cuttings.

These three beams are interchangeable and all work on the same frame. The cutting depth is controlled by a lever handle operated from the seat. Trenchers are equipped with marker adjustable for three, three and one-half, or four foot rows. Neck-yoke or eveners not included.

RUBBER GLOSS

55 Gallon Drums—\$1.50 per Gallon

New cold cover solution for sealing the tops of Roses, Shrubs, Mulberry scions and other top worked trees. In dipping the tops of Roses to keep them from drying out, the Rubber Gloss is diluted 50% with water and kept at a temperature of from 80 to 90 degrees. If you wish the tops of Roses a good green we can supply a blue-green dye to be mixed with Rubber Gloss. This not only keeps the tops of the Roses in perfect condition, but gives them a better color for your Retail trade.

The old method of dipping the tops of Roses in hot paraffin is often injurious. You will find this new cold cover will not injure the tops of the Roses or other plants; one gallon will dip twice as many and is much preferred to the old method.
